## GERMAN CHANCELLOR RENIGS ON THE PEACE PROPOSAL

TEDDY FLAYS HUNS  
WITHIN OUR GATES

(By Associated Press.)

ST. PAUL, MINN., Sept. 29.—On the platform of the auditorium where Senator LaFollette last week decried American entry into the war on what he termed a violation of "technical rights," Colonel Roosevelt, classing the Wisconsin senator among the "Huns within our gates," declared he would like to send LaFollette and his "shadow Huns" to Germany as "free gift to the Kaiser."

Among the "shadow Huns" the Colonel included Senator Gronna of North Dakota and Representative Lundeen of Minnesota.

The lateness of Colonel Roosevelt's train in reaching the Twin Cities and the demonstration accorded him both in Minneapolis and St. Paul de-

played his address, but the big hall was full when he arrived.

The Colonel had been given a transcript of Senator LaFollette's speech before the producers' and consumers' conference held here last week under the auspices of the Non-Partisan League. "I have not had time to read it all," he said, "but I have already found two or three 'gentlemen.'"

"Senator LaFollette's assertion that America's participation in the war was due to American citizens being passengers on a ship loaded with munitions for Great Britain," declared the Colonel, is a falsehood, and he knows it is a falsehood."

TWO POLITICIANS  
SLAIN IN TEXAS  
CITY HALL DUEL

FORT WORTH OFFICIALS EN-  
GAGE IN A FATAL SHOOT-  
ING MATCH.

(By Associated Press.)

FORT WORTH, Tex., Sept. 29.—Edward Parsley, police commissioner, was shot and killed late yesterday afternoon in his private office by J. K. Yates, former police inspector, who in turn was shot to death by a group of officers after he had barricaded himself in the commissioner's office.

Yates had threatened both the mayor and Commissioner Parsley, it is said, and went to the city hall seeking the mayor. Not finding him, Yates went to Mr. Parsley's office. A fusillade of shots was fired and officers rushed upstairs to find the door barred. Chief of Police Montgomery sent for riot guns and a fierce exchange of shots through the door to the commissioner's office ensued. The door finally was broken in and the former police inspector's body was found riddled with bullets.

Mr. Parsley was shot twice through the head.

IRON WORKERS  
BACK TO WORK

REGARDLESS OF ACTION OF  
BOILERMAKERS IN HOLD-  
ING OUT.

(By Associated Press.)

SAN FRANCISCO, Cal., Sept. 29.—All members of unions concerned in the strike of 30,000 metal workers here were instructed last night by the trades council to return to work. The action by the council was taken to indicate that efforts would be made to continue operations even if the boilermakers and two other unions, who prevented resumption of work yesterday, refused to report for duty. The majority of the unions composing the council had ratified a temporary agreement made last Sunday by which the men were to return to work pending the drawing up of a permanent agreement by the federal board of conciliators.

Only a handful of men responded when the Union Ironworkers and other structural concerns opened today. In defiance of President Burton of the Iron Trades council, who ordered all strikers to return, James Enright, secretary of the boilermakers, union, said:

"Any boilermaker who returns to work will be discharged from the union." Many failed to return be-

He had given the order to fix bayonets when five shots were fired. The sergeant fell seriously wounded.

The shooting was the culmination of a night of disorders fomented by Sinn Feiners, small groups of whom paraded the streets whistling the Sinn Fein anthems and cheering the Sinn Fein leader, Thomas Ashe, who died in jail. KINGDOM.

(By Associated Press.)

CHRISTIANA, Sept. 29.—German propagandists, spies and conspirators formerly so active in the United States now seem to have transferred their attention to Norway. A series of suspicious fires in steamships and factories are blamed on plotters. Others are charged with helping interned German sailors escape. Some Germans have been caught at espionage. The public press is becoming more enraged over these outrages and warning the people to beware.

OF ORDERS.

(By Associated Press.)

KELLYVILLE, Okla., Sept. 29.—Bodies of sixteen negroes, three of which were women, and seven white men have been taken from the wreckage of the St. Louis & San Francisco train No. 7, which collided head-on with an empty troop train one mile southwest of here yesterday.

The only white man identified so far is a Mr. Hutchinson, an oil man of Tulsa, who was the twenty-third victim taken out. No. 7 was to have taken siding at Kellyville to let the troop train pass, but pulled out of the station before receiving the orders, it is said, meeting the troop train head-on at a bridge across Polk creek.

NO ADVANTAGES GIVEN  
UP IN ADVANCE OF  
PEACE NEGOTIATIONS

(By Associated Press.)  
COPENHAGEN, Sept. 29.—Germany has not renounced Belgium nor been communicating with any enemies, according to Berlin reports of the Michaelis speech before the main committee of the reichstag.

"I declare the statement untrue that the government has already communicated with any hostile government or, in advance, renounced any occupied territories, thus abandoning the most valuable advantages in peace negotiations," Michaelis is reported as saying. "I declare the imperial government has free hands

for eventual peace negotiations. This also refers to Belgium."

(By Associated Press.)

LONDON, Sept. 29.—British aviators dropped seven tons of explosives Thursday night on German military establishments in Belgium. They reported good success.

(By Associated Press.)

At last accounts Field Marshal Haig was consolidating the positions won from the Germans in Wednesday's battle east of Ypres, the extension of which would give him a position dominating the Ostend-Lille railroad and flanking both the northern and southern parts of Crown Prince Rupprecht of Bavaria's line.

All the commanding positions taken by the English, Scotch and Australian troops in the latest drive have been firmly held by them.

The Berlin official communication reports that to the east of Ypres the British artillery again has assumed the proportions of drum fire, which is always an indication that Haig has in store for the enemy a still further relentless attack against his lines.

Crown Prince Frederick William, probably imbued with the idea that at some time he will be able to pierce General Petain's front along the southern part of the battle line in France, continues here and there to strike violently. His latest attempt has been in the forest of the Argonne, where three times he threw his troops against the Frenchmen.

The effort of the Germans was fruitless and brought to them only additional heavy casualties.

The British controller of shipping announces it is reasonable to expect the enemy will destroy with U-boats 200 vessels in excess of the tonnage that can be built by next spring. He says there is urgent need for the United States to undertake merchant shipbuilding on a broad scale, as otherwise it will be impossible to send a substantial force of soldiers to France next spring without seriously affecting the tonnage required for carrying food to France, Italy and Great Britain.
